

# Smart Care Facility

Reform health ecosystem through the power of technology

Transcend's high-endurance SSDs and DRAM modules ensure superior data integrity, supporting medical equipment in monitoring, measuring, and analyzing physiological parameters. This guarantees timely data transfer and reliable storage, enhancing patients' clinical experiences and elevating overall medical quality.

## Superior Data Integrity

PLP (Power Loss Protection) preserves critical data during sudden power outages.

## Prolonged Lifespan

SLC Mode offers 30x greater P/E cycles for efficient 24/7 data transfer.

## Optimized Performance

Built-in DRAM cache and LDPC ECC algorithms prevent data corruption.

## Featured Products

PCIe Gen 4x4  
M.2 2280

**MTE560I**

SATA III 6Gb/s  
M.2 2242

**MTS210I**

SATA III 6Gb/s  
M.2 2280

**MTS970P**

SATA III 6Gb/s  
M.2 2242

**MTS570P**

DDR4 DRAM Modules
