

Body Cameras DrivePro Body 70

Transcend's DrivePro Body 70 body camera features a compact camera unit tethered to a control unit, allowing for a wide variety of attachment options. Tailor-made for law enforcement and security departments, the rugged and highly responsive DrivePro Body 70 allows 2K QHD 1440P evidence collection and wireless data previews and transfers.

Capture Clear Evidence

The DrivePro Body 70 features a high-sensitivity image sensor to capture high-resolution images and 2K QHD 1440P video with superb, rich color even in low light. Images are highly detailed with low noise and excellent balance between light and dark areas, supporting law enforcement personnel in the field with gathering critical evidence.

Mounting Flexibility: Tethered Camera Unit

The DrivePro Body 70 is composed of a control unit with a separate compact camera. Users can choose either a Velcro holder or a rotatable clip to securely mount the camera unit on military vests, making it a solid choice for filming in the dynamic environments public safety officers work in every day.

Full-Shift Battery Life

The DrivePro Body 70 comes with a high-capacity Li-Polymer battery, allowing up to 9 hours of recording on a single charge. This allows police and other professionals to record over a full shift.

Note: Battery life may vary based on environmental conditions and operation settings.

Body Cameras

DrivePro Body 70

Features

- Connect to mobile devices easily and quickly
- Built-in GPS receiver for geotagging videos and images
- Buffering mode captures crucial footage and saves storage space
- Built-in Wi-Fi function for mobile live streaming

DrivePro Body Toolbox

DrivePro Body Toolbox allows you to securely manage videos and snapshots, adjust settings, format internal storage, and upgrade firmware.

DrivePro Body App

DrivePro Body App is designed for use with DrivePro Body cameras featuring Wi-Fi connectivity. Manage cameras and view recordings from your mobile device.
